

Rhyolite Herald, May 5, 1905

"LOCAL PANNINGS."

Gordon Kennedy, aged 21 years, died this Friday morning after a ten days' illness with pneumonia. Mr. Kennedy's sister from Tonopah was with him when the end came. The interment will take place here but the body will probably be removed later to Nova Scotia. The deceased has a brother in Boston and two brothers in the Klondike. The young man was well and favorably known here. This is the first death from pneumonia in this city.

Beatty Bullfrog Miner, May 13, 1905

"RHYOLITE ITEMS"

Dr. Ingersoll reports the death of a man named Gordon Kennedy from pneumonia. Considering the population there is comparatively low mortality in the mining camps.

Note: The body was never moved to Nova Scotia but is still interred at Southside Cemetery
